1 Semester

RECENT PROJECTS_

2018

Touring Light Show for Fleece

Developed a responsive light show for Montreal-based band Fleece that was used during their Summer 2018 North American tour. It was designed to be easily portable and responsive to the band's music during performances.

2017

Solar Decathlon China

Was involved with TeamMTL (a collaboration between McGill and Concordia) to design energy efficient homes for the Solar Decathlon design competition in Dezhou, China. Designed and prototyped interactive elements of the house.
